

**Fabricated components for a Sussex
Heritage Trust Awards nominated
residential project**

CASE STUDY

AIMS & OBJECTIVES

For this Sussex Heritage Trust Awards nominated house, SEFAB were brought on board early in the construction phase to provide expert knowledge and assistance.

Works carried out by SEFAB included:

- Design and manufacture of aluminium hidden gutter system
- Design and manufacture of interlocking aluminium parapet wall capping
- Aluminium fascia and gable end flashings
- Fabricated aluminium chimney cowl
- Aluminium window surround trims
- Aluminium cappings for planters
- Aluminium trims to provide shadow gap detail around the kitchen units

All components were fabricated in our workshop to exact dimensions to mitigate on site modifications and facilitate installation. Fabrications were manufactured in either 2mm or 3mm aluminium and powder coated to RAL 7016.

Working alongside the main contractor to supply powder coated aluminium trims to a new build residential property

“We are overwhelmed with the attention to detail.”

COMMERCIAL | INDUSTRIAL | AGRICULTURAL | DOMESTIC

WHY SEFAB?

Other services that SEFAB are able to offer include:

- Made to order flashings, trims, gutters and rainwater goods for the roofing and cladding industry
- Bespoke fabrications for commercial and domestic users
- Large stock holding of flat sheets, including pre-finished steel (plastisol and painted finishes), galvanised, aluminium, mild steel (CR4) and stainless steel, all available for purchase
- Powder coating service to virtually any RAL colour you require
- Delivery service, either using our own transport or by a trusted courier

Working from our warehouse on the outskirts of East Grinstead our skilled and experienced operatives pride themselves on the quality of products manufactured.
